

Wart

Permanent Hair Reduction, Underarm

Treatment of Ingrown Hair (PFB)

Sun & Age Spots

A Wide Range of Treatments

The LightPod Neo® is a uniquely gentle and versatile laser device, which is safely and effectively used for a broad range of common aesthetic skin treatments:

- ▶ Skin Tightening
- ▶ Skin Rejuvenation
- ▶ Hair Removal
- ▶ PFB (ingrown hairs)
- ▶ Acne Clearance
- ▶ Spider Veins
- ▶ Sun & Age Spots
- ▶ Rosacea
- ▶ Acne
- ▶ Nail Fungus
- ▶ Angiomas

How does the LightPod Neo work?

The Neo's 1064nm laser light is attracted to a combination of melanin, hemoglobin and water within the skin tissue. The laser energy passes through the epidermis and selectively targets specific tissue structures without affecting the surrounding skin. These factors are what makes the laser so versatile, efficient, safe and gentle.

Rosacea

Mustache

Leg Vessels

Angioma
